

**AMENDMENTS TO THE CLAIMS:**

The listing of claims will replace all prior versions, and listings of claims in the application:

**LISTING OF CLAIMS:**

1. (previously amended) A partial print provider that permits a first print spooler associated with a network print server to interface with a second print spooler associated with the network print server for further processing of a print job submitted to a network print client.
2. (previously amended) A partial print provider according to claim 1 wherein the network print server is operating Windows NT software and the second print spooler is a Windows NT print spooler.
3. (previously amended) A partial print provider according to claim 2 wherein the interface between the NT print spooler and the first spooler permits the first spooler to leverage off on Microsoft's print services, protocols and network technologies.
4. (original) A partial print provider according to claim 1 wherein the partial print provider is a dynamically linked library file.
5. (previously amended) A partial print provider according to claim 1 wherein all print jobs received by the second spooler are forwarded to the first spooler for further processing.
6. (previously amended) A partial print provider according to claim 1 wherein the partial print provider can be modified to establish an interface between the first print spooler and any second spooler.

7. (original) A partial print provider according to claim 1 wherein the network print server is configured to be used with a xerographic print device.
8. (new) The partial print provider according to claim 1, wherein the partial print provider acts as a direct link between the first print spooler and the second print spooler.
